CAREER OBJECTIVE

Front-End Developer with one year experience at Wipro. Passionate about learning and development with a desire to apply skills on a larger development team. Eager to tackle more complex problems and continue to find ways to maximize user efficiency. As a web developer, my objective is to create user-friendly and efficient websites that are visually appealing and easy to navigate. I utilize my skills in HTML, CSS, JavaScript to develop websites that meet all the requirements of the client.

WORK EXPERIENCE

Front-End Developer

Freelancer

May 2023 - Current/Remote

- Developed UI (user interface) for eCommerce website using HTML, JavaScript, and CSS that resulted in a 10% increase in organic site visits and a 20% increase in the average shopping cart value.
- Collaborated with back-end developers and designers to integrate web services and third-party APIs to design and develop mobile-friendly, responsive websites.
- Wrote and troubleshooted JavaScript, HTML, and CSS code for 2 web-based applications, resulting in improved usability and user experience across the board

Software Engineer

Wipro

Feb 2022 - April 2023 / Gurugram, Haryana

- Designed, developed and maintained websites for our clients using HTML, CSS and JavaScript as a part of 3 people team.
- Manually sweep tested the websites.
- Created non-technical descriptions of operations and workflow to enable non-coding team to function with minimal interruption.

Project

Spotify Clone

I designed and developed a Spotify clone using HTML, CSS, and JavaScript. This project allow users to play music.

The interface resembles Spotify's design.

Technologies Used:

- HTML: Structured the content and layout of the application.
- CSS: Styled the interface to mimic Spotify's aesthetic.
- JavaScript: Implemented functionality for music playback.
